CROP of 1954

# 1954

## Seed Growing Contract

To:

The William Macdonald Seed Co.  
Santa Maria, California

Gentlemen:

Kindly enter our order for delivery from 1954 crop on the quantities and varieties of Flower Seeds indicated in this catalog. Also mail us a detailed acknowledgment of this order for our files.

Shipment is to be made as per instructions marked on this page from 1954 harvest seed. If any varieties cannot be booked now, please advise promptly. Be sure to send us another list to replace this one.

It is understood that this order is placed subject to the standard Terms and Conditions of Delivery as outlined on page 3 of this catalog. Please adhere carefully to the following special instructions:

**THE WILLIAM MACDONALD SEED CO.**

EXCLUSIVE FLOWER SEED GROWERS

SANTA MARIA

U. S. A.

CALIFORNIA

# For the Seed Trade . . .

Early planting conditions for 1954 crop have been ideal. Winter and Spring rains were well spaced, enabling us to sow all crops on schedule, and in good moisture for rapid growth. This booklet is our Wholesale Contract List covering prices for 1954 crop delivery.

Many crops were short last year, but in most cases we were able to protect customers who contracted early. When shortages are apparent and bookings are at capacity, you who contract ahead will get preferential treatment. Those ordering later are frequently disappointed. Future contracting is always safe insurance. It assures you quality seed from planned production at fair prices based on cost—not speculation. The alternative, spot buying, risks getting any seed at all. It certainly cannot get you any better seed and it may cost you more money. When seed is indispensable, why take this risk?

California is world famous for quality Flower Seed. Our climate and scientific production methods combine to give you high germinating and bright seed samples. We are confident you will find our prices reasonable and consistent with the top quality California grown seed we offer. Customers remember quality, long after price is forgotten.

Our flower fields are usually in full bloom between May and September. Visitors are always welcome. We especially invite Seedsmen attending the A.S.T.A. Convention in San Francisco this June to join our Flower Field tour. We are centrally located, about halfway between San Francisco and Los Angeles, on Coast Highway No. 101. Southwest Airways provides excellent service.

Your business during the past season is greatly appreciated. We are planning now to serve you even better on 1954 crop requirements.

A handwritten signature in cursive script, reading "W. J. Macdonald". The signature is written in dark ink and is positioned at the bottom of the page.

# Terms and Conditions of Delivery

All seeds are offered F.O.B. Santa Maria, California, for delivery from 1954 crop as soon as possible after harvest. Invoices to firms of established credit are subject to a discount of 1% for cash in 30 days from invoice date, or 60 days net. New customers should furnish two credit references if shipment is desired on an open account basis. Otherwise delivery will be made C.O.D. All foreign invoices are payable in U. S. Dollars at the current rate of exchange. All overdue accounts are subject to a sight draft without further notice.

Speedy Air Parcel Post and Air Express service can have your rush orders delivered 24 hours after we receive them. Southwest Airways Inc. makes four daily stops in Santa Maria. Air Mail from all major cities usually arrives here the day after posting. We ship Air Mail orders the same day received.

Definite shipping instructions should accompany each order placed, and will be carefully followed by our Shipping Department. In the event instructions are not received, shipments will be forwarded over the most direct and cheapest route. Delivery to the common carrier in good condition will terminate our responsibility.

Prices quoted in this catalog apply against all 1954 crop contract purchases, and are effective immediately on spot orders. We reserve the right to change these prices at any time without giving further notice. We are Wholesale Growers and supply the Seed Trade only.

Bags and containers will be charged at net cost. All orders for four ounces or more will be charged at the pound rate. Due to increased handling costs on small orders, a minimum charge of 50c will be made on each item billed.

We will plant sufficient land to produce the quantity of seed ordered under normal conditions; however, crop failure or any other cause beyond our control releases us from delivery and in the event of shortages, we will fill contract orders on a pro-rata basis only.

The William Macdonald Seed Company warrants to the extent of the purchase price that seeds or bulbs sold are as described on the container, within recognized tolerance. Seller gives no other or further warranty express or implied.

## **Novelties for Your Best Trade**

### **SWEET PEA**

#### **"Little Sweetheart"**

**Macdonald**

After fourteen years continuous breeding and selection, "Little Sweetheart" Sweet Pea was finally introduced

in the Fall of 1953. Its tremendous novelty value was immediately recognized, and as a result our limited seed supply was quickly exhausted. 1954 plantings have been increased seven-fold to handle all of our customers requirements.

"Little Sweetheart" is an entirely new class of Spencer Sweet Pea. Plants grow upright and form a perfectly rounded bush about 8 inches high. (See front cover photo.) These compact little plants do not require any support and are literally covered with large Spencer type flowers. It is a sparkling mixture with a full color range; from white and cream, thru salmon, rose, scarlet and crimson, to mauve, lavender, blue and maroon—with many bi-colors.

"Little Sweetheart" comes into bloom early and will continue flowering over a long period. It has been especially developed for the home gardener, who can now use this Sweet Pea novelty for borders, bedding or pot plant culture. Never before has a Sweet Pea been adaptable to so many new uses.

You should plan now to feature "Little Sweetheart" Sweet Pea in 1955. As a convenience to customers, beautiful full color packets are obtainable from the Schmidt Lithograph Co. in San Francisco. For catalog illustration, we will have a four color plate 3 x 3 7/8 inches showing a rose colored plant in full bloom. Electros are available at cost. Black and white photos will be supplied free.

New crop seed will be ready for shipment in September. We suggest that you order as soon as possible.

Per Lb. 30.00

**Santa Maria, California**

## **Novelties for Your Best Trade**

### **SWEET PEA LATE SPENCER**

#### **"Peace"**

One of the finest Sweet Peas developed in our extensive breeding program. "Peace" received an Award of Merit

**Macdonald**

after trial at Wisley, England, in 1953. This high recognition of quality was granted by the Joint Sweet Pea Committee of The Royal Horticultural Society and the National Sweet Pea Society.

As its name would imply, "Peace" has delicately soft and quiet color tones. It is almost identical in color with the great All America Rose Selection "Peace." Following is the R.H.S. description: "Plant vigorous; flower stems 12 inches long, very stiff, with an average of 4 flowers per stem. Flower 2 1/5 inches across, 1 2/5 inches deep, of good substance, much waved, standards and wings cream flushed Camellia Rose, keel cream. (H.C.C. between 622/3 and 622/2)"

"Peace" is an outstanding variety for garden decoration. It has that winning combination of color, size and vigor.

Per Oz. 2.00

Per Lb. 20.00

### **SWEET PEA EARLY FLOWERING**

#### **"Gingham"**

It is a gorgeous flushed rose, changing to a rich salmon rose under artificial lighting. Colossal flowers

**Macdonald**

measure over 2 1/2 inches. "Gingham" is the largest flowered Sweet Pea we have ever seen. Seven generations in our trial ground have proven it entirely fixed. Plants make fine strong growth, throwing long husky stems bearing four florets each. "Gingham" is an attractive combination of rose changing to white on the edges of standard and wings.

Per Oz. 1.50

Per Lb. 15.00

## California's Best Flower Seeds

### Novelties for Your Best Trade

#### ASTER BURPEEANA EXTRA EARLY

This new strain is a complete mixture of all colors. Flowers are shaped similar to the American Beauty type, fully double and will attain a size of 4 inches. Plants are 20 inches tall and very uniform in growth, with a closely compact, upright habit. Aster Burpeeana is perhaps the earliest Aster strain in cultivation, flowering about two weeks ahead of Queen of the Market. Its large flowers and long stems make it attractive to both home gardeners and florists.

Per Oz. 7.00

Per Lb. 70.00

#### VERBENA ELFIN TYPES (Dwarf Compact)

##### Macdonald

The introduction of "Pixie" in 1950 heralded a new class of dwarf compact Verbena. Growth is upright

and a uniform 9 inches. Trusses of florets measure over 2 inches across and 15 to 20 stems comprise a single plant. Individual florets average over  $\frac{3}{4}$  inch. These attractive little plants are always a mass of flowers and never present a ragged appearance. In the various colors, one or more makes an ideal edging for any flower bed. Or if planted solid, a sparkling mass effect can easily be achieved.

**Pixie**—bright scarlet with cream eye

**Sprite**—colorful blend of pink and rose shades

**Imp**—bright rose with large white eye

Per Lb. 30.00

#### MARIGOLD GIANT PERFECTO MIXED

Here is a semi-tall, uniformly fine blend of full double Giant African Marigolds. Flowers up to 5 inches across in all the colors of African Marigolds. This is an extra early free flowering strain. Plants have a vigorous upright habit, reaching a height of about 3 feet.

Per Oz. 1.50

Per Lb. 15.00

## California's Best Flower Seeds

### Novelties for Your Best Trade

#### **ALYSSUM PURPLE MANTLE** (Procumbens Type)

Many years selection in our Trial Ground has produced uniform flat plants 10 to 12 inches in diameter and un-

der 3 inches deep. In color tones it is an attractive deep purple violet—a bit deeper than Violet Queen.

Macdonald

Purple Mantle and Carpet of Snow are natural compliments to each other, both being of similar habit and growth. Purple Mantle stays in flower over an unusually long period, with racemes of florets making a continuous display. As plants get older, it does not have the ragged spread appearance of other Alyssum.

We are sure that gardeners everywhere will welcome Purple Mantle. It is so easy to grow and colorful for borders or mass effect plantings—where its rich purple color tones blend beautifully in the garden.

Per Oz. 2.50

Per Lb. 25.00

#### **ZINNIA GIANT CACTUS FLOWERED** "Burpee Hybrids"

These are immense flowered, yet informal and delicate in appearance. Our mixture has a gorgeous range of colors, from pastels to bright scarlet. Flowers average from 5 to 6 inches in size and are carried on husky stems for cutting. Their informal petal formation is extremely attractive, some flowers being ruffled, others curled and quilled. Plants are strong growing, free blooming, and ideal for garden decoration.

Per Oz. 1.00

Per Lb. 8.00

#### "Blaze"

Brilliant flame-orange color. Same informal flower type and habit as Burpee Hybrids. All-America Selection for 1954. This is a really outstanding Zinnia.

Per Oz. 2.50

Per Lb. 25.00

#### **MARIGOLD LULU** (Tagetes Signata Pumila)

Habit is ball shaped with fern-like foliage. This is the first pure yellow in the Tagetes type. Plants are covered with small single flowers and grow to a height of 7 inches.

Per Oz. 1.50

Per Lb. 15.00

## **Novelties for Your Best Trade**

### **SWEET PEAS MULTIFLORA TYPES**

Since its introduction two years ago, this new multi-flowered Sweet Pea class is now in great demand by both home gardeners and florists. Plants are extremely vigorous, producing 18 inch stems that have 6 and 7 florets. Our listing contains most of the original varieties, plus several new seedlings from our own extensive breeding work. This new class is the greatest single development in Sweet Peas for cut flowers in recent years. Please refer to page 12 for our complete listing.

### **SWEET PEA EARLY MULTIFLORA**

#### **"El Capitan"**

**Macdonald**

Direct from our trial ground, here is a vivid carmine spinel red, and a true multi-flowered variety. Six and

more florets are closely spaced on long pencil stems. "El Capitan" should ideally suit both home gardener and florist. It is a fine addition to the new Multiflora Sweet Pea class.

Per Oz. 2.00

Per Lb. 20.00

### **ALYSSUM ROYAL CARPET**

**(A.A.S. 1953)**

Similar in habit to Carpet of Snow, but a vibrant purple color. Grows only a few inches high and about 10 inches across. An excellent item for a solid mass of color or edging a flower bed.

Per Oz. 2.50

Per Lb. 25.00

### **ZINNIA PEPPERMINT STICK**

**(Cut-and-come-again)**

Variously striped—red and white, red and yellow, orange and yellow, purple and white. Early flowering and bears a great profusion of blooms. Something a bit different in Zinnias.

Per Oz. 1.00

Per Lb. 10.00

**Santa Maria, California**

## **Novelties for Your Best Trade**

### **TETRAPLOID SNAPDRAGONS (Tetra Type)**

These are the finest *Antirrhinum* available for either cutting or bedding. Their tetraploid blood strains produce long tapering spikes with evenly spaced immense ruffled florets. These are all outstanding exhibition type Snapdragons.

**"Candlelight"**—Very fine bright yellow. Large florets are well spaced on long tapering spikes. Beautiful for cutting.

**"Crimson"**—A sparkling deep velvet crimson. Foliage is thick and dark green. Plants are strong, producing 2 foot spikes of closely spaced flowers.

**"Pink Shades"**—Light to deep rose pink. Freely branching with one immense spike per plant, up to 30 inches tall and having a 16 inch span of ruffled florets.

**"Sunset Hybrids"**—These have a most attractive color range of primrose thru terra cotta, to deep amber pinks—both bi-colors and solids. Base branching habit with 8 to 10 stems per plant averaging 22 inches tall. Individually large florets closely spaced cover 9 inches on a spike.

**"Talisman Hybrids"**—A gorgeous blend of gold, scarlet, yellow and orange. Base branching habit. Large ruffled florets cover half of a 2 foot spike.

**"White"**—A pure paper white. Base branching and similar distinctive flowering habits as Sunset Hybrids.

Price each above

Per Lb. 50.00

**"Tetra Mixed"**—A fine evenly balanced mixture containing many unusual colors and combinations.

Per Oz. 3.50

Per Lb. 35.00

### **ASTER SANTA ROSA (Super Giant)**

We are pleased to offer Santa Rosa, a new bright rose pink in the Super California Giant class of Aster.

A uniform upright branching strain, producing flowers up to 6 inches across, on 2½ foot stems. Petals are lacy and delicately interlaced. Plants have deep green foliage and dark stems—averaging 6 to 8 cutting stems per plant. Santa Rosa is a pleasing shade that is sure to be popular with both home gardeners and florists.

**Macdonald**

# Sweet Peas

## EARLY OR WINTER FLOWERING

Our listing includes all of the most important Florist and Home Gardener varieties. These newer sorts feature extra strong growth, long stems, and large flowers—with many being duplexed. Winter Sweet Peas bloom at least two weeks earlier than either Cuthbertson or Summer Spencer types. This is the type for Christmas flowering—either under glass or outside in the milder climatic zones. Sweet Peas have been a Macdonald specialty for twenty-seven years. During this period we have originated many current favorites. Let us send you trials for your garden or florist customers. No better Sweet Peas are available anywhere—at any price!

**Tahoe**, mid-blue  
**Tops**, duplexed rose pink  
**Treasure Island**, orange

# The William Macdonald Seed Co.

## SWEET PEA SPENCER SPRING FLOWERING CUTHBERTSON TYPE (HAC)

This is an intermediate flowering group and best for late spring bloom where some heat resistance is required. They are especially well adapted for growing in mid-western states. Vigorous growth and large flowered. Blooming in the spring two weeks after the Winter Spencers and ten days before the Summer Spencer sorts.

### SWEET PEA SUMMER or LATE FLOWERING SPENCER VARIETIES (HAC)

Many outstanding Sweet Pea novelties have been introduced in recent years. All of those we are listing received awards in the English and Scottish trials where this class of Sweet Pea is most popular. Also included is a complete listing of the regular standard varieties, with most of the old inferior sorts being eliminated. Please refer to page 54 for a complete color classification of Summer Flowering Sweet Peas. If we are not listing the variety you want, an equally good substitute can be found in the same color group there. Sweet Peas are a specialty item with Macdonald, over 250 acres being devoted to their culture.

## Color Classification

In addition to our regular four acre Sweet Pea Trial Ground, we recently conducted a series of color tests on every Sweet Pea variety that is offered for sale. An especially outstanding variety in each color group is indicated by two stars (★★). Those with one star (★) are highly recommended and will give fine results. All recommended varieties are vigorous growers, and will produce immense flowers on long stems.
